

Issued Darren Parkin	Approved Mark Jones
-------------------------	------------------------

3.1. Purpose

The Trelleborg Coated Systems (TCS) Top management shall define the organization's environmental policy and ensure that it:

- is appropriate to the purpose and context of the organization, including the nature, scale and environmental impacts of its activities, products and services;
- provides a framework for setting environmental objectives;
- includes a commitment to the protection of the environment, including prevention of pollution and other specific commitment(s) relevant to the context of the organization;
- includes a commitment to fulfil its compliance obligations;
- includes a commitment to continual improvement of the environmental management system to enhance environmental performance.
- is documented, implemented and maintained and communicated to all persons working for or on behalf of the organization;
- is available to the interested parties

3.2. Guideline for the Environmental Policy

The TCS Environmental Policy is the driver for implementing and improving the TCS's multisite environmental management system so that we can maintain and potentially improve our environmental performance. The policy reflects the commitment of TCS to compliance with applicable laws and continual improvement. The policy forms the basis upon which central TCS and the local sites organizations set their objectives and targets. The policy should be sufficiently clear to be capable of being understood by internal and external interested parties and should be periodically reviewed and revised to reflect changing conditions and information. Its area of application should be clearly identifiable. The environmental policy shall include aspects of environment, health and safety.

The TCS Environmental Policy will align with the Trelleborg Group Environmental Policy, environmental objectives and planning actions to achieve the environmental objectives, as well as being compliant with the requirements of ISO 14001:2015.

3.3. Responsibility

The TCS Central Environmental Coordinator in cooperation with the Trelleborg Group Environmental Representative and the TCS Top Management will write, implement and maintain the TCS Environmental Policy. The TCS BA President will approve the TCS Environmental Policy
